

Enterprise Choice

100 mobile connections or more

If you have 100 mobile connections or more, we can tailor an Enterprise Choice package to suit your business and save you money. You can also select optional add-ons, like Mobile Office and Fixed to Mobile and take advantage of additional savings.

How it works:

With Enterprise Choice all you need to get great value rates is create a Business User Group. Just nominate the fixed line numbers you want included, then those fixed line numbers and Vodafone mobile numbers form the Business User Group (referred to as Group). From then on, all calls from Group mobiles to other Group mobiles, and from Group mobiles back to Group fixed lines will receive low call rates.

Features

What are the features of Enterprise Choice?

Enterprise Choice gives you:

- Low call rates within your Group
- No flagfall on Group calls and calls to Australian mobiles and fixed lines
- Low international call rates
- The option to add-on Mobile Office for an additional monthly fee
- Fixed to Mobile add-on as an optional extra

Enterprise Choice optional extras:

- **Mobile Office add-on:** Get the flexibility your business needs by calling members of your nominated Group free of charge, from within Australia. Enjoy existing Vodafone mobile functions like conference calls and extension dialling for free. For more details, [click here](#).
- **Fixed to Mobile add-on:** Enjoy great call rates on your existing Group fixed lines to nominated Group and other mobiles in Australia. For more details, [click here](#).
- **Black and White Lists:** Decide what numbers can and can't be called.
- **The Enterprise Choice Employee plan:** Incentivise your staff with the benefit of enjoying the same great, low call rates as the company, just by signing up to the Enterprise Choice Employee plan.
